

KAVLI INSTITUTE FOR NEUROSCIENCE SYMPOSIUM

April 6, 2017
10:30AM – 4:30PM

The Anlyan Center Auditorium (N107)
300 Cedar Street
Yale School of Medicine

Morning Session

10:30 – 10:40AM
Opening Remarks

10:40 – 11:20AM
Thomas Jessell

Columbia University

Diversity and Circuitry as Elements of Spinal Motor Control

11:20AM – 12:00PM

Catherine Dulac

Harvard University

Neurobiology of Social Behavior

12:00 – 12:40PM

Massimo Scanziani

University of California, San Francisco

Cortical Circuits of Vision

12:40 – 1:00PM

Daniel Colón-Ramos

Yale University

Cell Biological Mechanisms of Synaptic Assembly, Plasticity and Function: Lessons from C. elegans

1:00 – 2:00PM Lunch

Afternoon Session

2:00 – 2:40PM

Leslie Vosshall

Rockefeller University

Neurobiology of the World's Most Dangerous Animal

2:40 – 3:00PM

Ellen Hoffman

Yale University

Identifying Convergent Neural Mechanisms in Zebrafish Models of Autism Risk Genes

3:00 – 3:40PM

Christopher Walsh

Harvard Medical School

Where Do We Come From? What Are We? Where Are We Going? Development and Evolution of the Human Cerebral Cortex

3:40 – 3:45PM

Closing Remarks

3:45 – 4:30PM Reception
